## Theater & Presentation

Make effective presentations that will impact your clients. If you can dream it, it's possible. Smart Digital® designs the most sophisticated conference rooms that the market has to offer. Virtual offices are more and more in demand. Smart Digital® can design a media room that will give you the ability to video conference with your clients anywhere.

## Access Control and Monitoring Solutions

Smart Digital® offers Access Control and Remote Access solutions for your facility. Whether you need to control or restrict the access of a door, remotely view a loading dock or receive notifications for malicious activity, Smart Digital® is your answer.

## Remote Access

Wherever you are, Smart Digital® can configure remote access to your premises through the web from your smart phone or similar device. You can also receive notifications in the event of an alarm or unusual circumstance. Most insurance companies offer a discount on your homeowners or business policy.
